

WALEED ARIF

AI ENGINEER

✉ waleedarif1011@gmail.com | 📞 +92-302-503-4080 | 📍 Lahore, Punjab, Pakistan

PROFESSIONAL SUMMARY

- AI Engineer with 2+ years of experience building and deploying LLM, Generative AI and Computer Vision solutions to solve real-world business challenges using advanced AI/ML technologies.
- Deep proficiency in Python, LoRA/PEFT fine-tuning, RAG pipelines, and vLLM inference serving, with strong foundations in data preprocessing, model training and deployment.
- Strong communication and problem-solving abilities, proven ability to work independently and collaborate with cross-functional teams to deliver end-to-end AI solutions from concept to production at scale.

CORE SKILLS

Python • LoRA/PEFT fine-tuning • RAG pipelines • vLLM inference serving • data preprocessing • model training • deployment • problem-solving • collaboration • analytical thinking • communication skills • critical thinking

PROFESSIONAL EXPERIENCE

AI/ML Engineer

November 2025 – Present

TekkDev

- Fine-tuned open-source LLMs via LoRA/PEFT for domain adaptation, matching full fine-tuning performance with minimal trainable parameters and reduced GPU memory overhead.
- Deployed LLM inference on-premise GPU servers using vLLM, achieving a 3–5x throughput boost with optimized high-concurrency handling and zero downtime.
- Engineered scalable inference pipelines supporting simultaneous multi-user sessions with zero downtime and enterprise-grade reliability.
- Developed Computer Vision models reaching 90–95% accuracy using advanced image preprocessing and augmentation techniques for stable training under limited data & compute.
- Deployed CV models with robust multi-user concurrency management and enterprise-grade security controls for reliable real-time production inference.

AI Engineer

September 2024 – March 2026

Sygnls

- Optimized processing of 10TB+ enterprise datasets through incremental chunking, reducing re-chunking time by 80%.
- Built and deployed RAG applications on Azure ML Studio with Azure AI Search, improving query response times by 30% and document retrieval accuracy across large enterprise datasets.
- Implemented CI/CD pipelines with Azure DevOps and automated testing, reducing deployment time across 3+ ML projects.
- Developed Flask-based RESTful APIs integrating AI models into responsive web interfaces, serving multiple concurrent enterprise users.
- Collaborated with cross-functional data engineering and product teams to design and maintain scalable, production-grade ML pipelines.

PROJECTS

Essence News

Python • Pandas • spaCy • TextBlob • Scikit-learn • Jupyter Notebook

- Developed and optimized a comprehensive ETL and NLP pipeline for large-scale news dataset analysis.
- Executed advanced data cleaning, structuring, and semantic analysis to extract actionable insights.
- Implemented scalable strategies and modular code for efficient processing of millions of news records.

AI Story

Python • Unsloth • Hugging Face Transformers • LoRA (PEFT) • PyTorch • Colab

- Fine-tuned Flan-T5 model for generative human storytelling response for complex data science results.
- Engineered a scalable training pipeline using Hugging Face Transformers and PEFT techniques (LoRA).
- Integrated fine-tuned model to generate and refine storylines based on user prompts.
- Used Unsloth to make the AI learn faster and more efficiently, reducing training time by 30%.

PoseMate

Python • OpenCV • Mediapipe • TensorFlow • Keras

- Processed over 15,000+ images to develop convolutional neural networks (CNNs) for precise pose estimation.
- Conducted statistical analysis and reduced training time by 20% through optimized data preprocessing techniques.
- Attained 95% accuracy by tuning hyperparameters on a training set of 15,000+ and a validation set of 5,000+ images.
- Evaluated the model on a test set of 5,000 images, achieving 95% accuracy, 94% precision, and 96% recall.
- Enhanced model efficiency by 20% through the integration of advanced AI techniques.

EDUCATION

Bachelor of Science in Computer Science

Sept – June

National University of Sciences and Technology (NUST), Pakistan
