EDUCATION

UCP UNIVERSITY OF PAKISTAN

- Bachelor of computer science ongoing

Intermediate

- Fsc ics
- M.A.O

SKILLS

- Data Analysis & Interpretation
- Statistical Modelling & Trend Analysis
- Data Cleaning & Transformation
- SQL Query Writing & Optimisation
- Python for Data Analysis (Pandas, NumPy)
- Dashboard Development (Power BI / Tableau)
- Advanced Microsoft Excel (Pivot Tables, VLOOKUP, Data Modelling)
- Performance Reporting & KPI Tracking
- Problem-Solving & Critical Thinking

TECHNICAL SKILL

- Programming Languages: Python, SQL
- Tools & Technologies: Power BI, Tableau, Microsoft Excel, Jupyter Notebook
- Database Systems: MySQL
- Other: MS Office Suite, Google Analytics (Basic)

PROFILE SUMMARY

Motivated and analytically driven Computer Science undergraduate with a strong foundation in data analysis, statistical reasoning, and problem-solving. Skilled in extracting meaningful insights from complex datasets and transforming raw information into structured, actionable intelligence. Demonstrates a proactive learning mindset, technical adaptability, and a commitment to delivering data-driven solutions that support strategic decision-making. Seeking an entry-level Data Analyst opportunity to contribute analytical expertise within a growth-oriented organisation

WORK EXPERIENCE

ACADEMIC PROJECTS

SALES DATA ANALYSIS & FORECASTING

- Analysed historical sales datasets using Python to identify revenue trends and seasonal patterns.
- DEVELOPED FORECASTING MODELS TO ESTIMATE FUTURE SALES PERFORMANCE.
- Presented findings through interactive dashboards for enhanced decision-making.

CUSTOMER SEGMENTATION STUDY

- Applied clustering techniques to categorise customer behaviour patterns.
- Identified high-value customer segments to support targeted marketing strategies.

DATABASE MANAGEMENT SYSTEM PROJECT

- Designed and implemented a relational database using MySQL.
- Wrote complex SQL queries for data retrieval and reporting purposes

CERTIFICATIONS

- Google Data Analytics
- Power BI Course
- Python for Data Science

Arfa karim IT Tower, Lahore

- MS Office (Word, Excel, PowerPoint)
- Full-Stack Web Developer
- Basic Data Handling
- Freelancing Platforms & Client Communication
